

Design System v1.0

Project Design Language

Inspired by:

- Modern Mobile Productivity Apps
 - Health & Wellness Applications
 - SaaS Dashboards
 - Apple Human Interface Guidelines
 - Linear
 - Notion
 - Fitbit
 - Headspace
-

1. DESIGN PRINCIPLES

1.1 Simplicity First

Every screen must communicate its purpose within 3 seconds.

Avoid:

- Visual clutter
- Excessive colors
- Dense layouts

Prioritize:

- Whitespace
 - Visual hierarchy
 - Readability
-

1.2 Card First Architecture

All important information should be grouped into cards.

Examples:

- Statistics
- Analytics

- Projects
- Notifications
- Goals
- Activities
- Tasks

Cards become the primary building block of the UI.

1.3 Soft Modern UI

The interface should feel:

- Friendly
- Professional
- Modern
- Calm

Avoid:

- Hard edges
 - Aggressive shadows
 - Overly saturated colors
-

1.4 Mobile Native Experience

The UI should feel designed specifically for mobile.

Not a website squeezed into a phone.

Characteristics:

- Large touch targets
 - Thumb-friendly navigation
 - Floating actions
 - Bottom navigation
-

2. BRAND PERSONALITY

The product should feel:

Trait	Value
Modern	High
Premium	High
Friendly	High
Professional	High
Playful	Medium
Corporate	Low
Minimalist	High
Trustworthy	High

3. COLOR SYSTEM

Primary Green

Used for:

- CTAs
- Active States
- Progress
- Analytics

#14C8B5

Dark Emerald

Used for:

- Authentication
- Headers
- Hero Areas

#0D5C4A

Secondary Green

Used for:

- Success
- Highlights
- Metrics

#72C48F

Light Mint

Used for:

- Active backgrounds
- Selected states

#EAFBF7

Background

Primary application background.

#F4F7FA

Surface

Card backgrounds.

#FFFFFF

Primary Text

#1B1D23

Secondary Text

#7B8190

Disabled Text

#AAB3BF

Border Color

#E6EAF0

4. GRADIENT SYSTEM

Hero Gradient

Used in:

- Login
- Signup
- Welcome Screens

```
linear-gradient(  
  135deg,  
  #0D5C4A,  
  #14C8B5  
)
```

Analytics Gradient

Used in:

- Progress cards

- KPI cards

```
linear-gradient(  
  135deg,  
  #14C8B5,  
  #72C48F  
)
```

CTA Gradient

```
linear-gradient(  
  135deg,  
  #14C8B5,  
  #4BD5C6  
)
```

5. TYPOGRAPHY SYSTEM

Font Family

Primary:

Poppins

Font Weights:

```
300  
400  
500  
600  
700
```

Heading Scale

H1

```
font-size: 40px;  
font-weight: 700;  
line-height: 48px;
```

H2

```
font-size: 32px;  
font-weight: 700;  
line-height: 40px;
```

H3

```
font-size: 24px;  
font-weight: 600;  
line-height: 32px;
```

H4

```
font-size: 20px;  
font-weight: 600;  
line-height: 28px;
```

H5

```
font-size: 18px;  
font-weight: 600;  
line-height: 24px;
```

Body

```
font-size: 16px;  
font-weight: 400;  
line-height: 24px;
```

Caption

```
font-size: 14px;  
font-weight: 400;  
line-height: 20px;
```

6. SPACING SYSTEM

Base Unit

8px

Scale

4
8
12
16
20
24
32
40
48
64
80
96

7. BORDER RADIUS SYSTEM

Small

12px

Medium

20px

Large

28px

Hero Cards

36px

Floating Button

999px

8. SHADOW SYSTEM

Card Shadow

0 10px 40px rgba(0,0,0,0.08)

Elevated Card

```
0 20px 50px rgba(20,200,181,0.12)
```

Floating Action Button

```
0 20px 60px rgba(20,200,181,0.20)
```

9. COMPONENT SYSTEM

Buttons

Primary

Properties:

- Filled
- Green
- White Text

```
height:56px;  
border-radius:18px;
```

Secondary

Properties:

- White
 - Border
 - Dark Text
-

Ghost

Properties:

- Transparent

- No border
-

Inputs

Height:

56px

Radius:

18px

States:

- Default
 - Hover
 - Focus
 - Error
 - Disabled
-

Cards

Hero Card

Used for:

- Analytics
 - KPI
 - AI Summary
-

Standard Card

Used for:

- Tasks
 - Projects
 - Notifications
-

Compact Card

Used for:

- Stats
 - Metrics
 - Chips
-

Progress Indicators

Types:

- Circular
 - Linear
 - Goal Completion
-

10. NAVIGATION SYSTEM

Bottom Navigation

Structure:

Home
Calendar
Add
Analytics
Profile

Center Action Button

Characteristics:

- Circular
- Floating
- Elevated

Size:

64px

Top Navigation

Contains:

- Page Title
 - Back Button
 - Context Actions
-

11. DASHBOARD DESIGN

Layout

Header

Greeting

Hero Analytics Card

Quick Actions

Recent Activity

Goals

Insights

Bottom Navigation

Hero Analytics Card

Contains:

- Completion %
 - KPI
 - Progress Ring
 - Quick Stats
-

12. AUTHENTICATION DESIGN

Login

Structure:

Hero Illustration

Welcome Message

Email

Password

Remember Me

Forgot Password

CTA Button

Signup Link

Signup

Structure:

Hero Header

Name

Email

Phone

Password

Confirm Password

CTA

Login Link

13. ANIMATION SYSTEM

Motion Principles

Motion must feel:

- Natural
- Lightweight
- Fast

Screen Transition

Duration:

300ms

Effect:

Fade + Slide

Card Entrance

opacity:0 → 1

translateY(20px → 0)

FAB Interaction

```
scale(1)
scale(0.95)
scale(1)
```

Progress Ring

```
animate from 0 to value
```

Duration:

```
800ms
```

14. EMPTY STATES

Every module must include:

- Illustration
- Explanation
- CTA

Example:

"No tasks available"

"Create your first task"

15. ERROR STATES

Must include:

- Friendly message
 - Retry CTA
 - Support Action
-

16. LOADING STATES

Use:

- Skeleton loaders
- Card placeholders
- Shimmer effects

Avoid:

- Spinners on full pages
-

17. ACCESSIBILITY

Requirements:

- WCAG AA
 - Proper contrast
 - Dynamic text scaling
 - Screen reader support
 - Touch target $\geq 44\text{px}$
-

18. DESIGN QUALITY CHECKLIST

Every screen must satisfy:

- ✓ Consistent spacing
- ✓ Proper typography hierarchy
- ✓ Card-based layout
- ✓ Responsive design
- ✓ Loading state
- ✓ Error state
- ✓ Empty state
- ✓ Accessible interactions
- ✓ Consistent animation
- ✓ Design token compliance
- ✓ Premium visual quality
- ✓ Mobile-first experience
